

# r-MicroZero Roll

Cloth is made from 100% recycled material

## Product Description

r-MicroZero Roll is Vileda Professional's brand new 100% recycled – and 100% recyclable – microfibre wipe roll. The roll format allows an easy distribution of the wipes and is used best together with our Roll Dispenser for quick and easy handling. In comparison to regular single use cloths, the amount of wipe needed, can be chosen completely individually – adjusted to the cleaning task you are facing. This optimized handling makes the r-MicroZero Roll especially suitable for professional cleaners.

Hygienically sensitive areas in particular can benefit from the advantages of the 100% recycled microfibre roll. Due to its single use character and the colour coding system, cross-contaminations can be avoided effectively due to an optimal differentiation of the wipes. Additionally, the advanced microfibre technology has been proven to remove up to 99.99% of bacteria and viruses.

## Application area

The advanced microfibre technology promises rapid and effective cleaning of high-risk areas, while removing of up to 99.99% of viruses and bacteria on different surfaces. Even delicate materials such as glass or ceramic can be cleaned with r-MicroZero Roll without leaving any damage or marks and also fatty dirt can be removed efficiently.

## Advantages

- Maximum hygiene through single-use
- Practical distribution of wipes
- Can be used with our Roll Dispenser for easy handling
- Certified removal of up to 99.99% bacteria and viruses just with water
- Superior microfibre technology for advanced cleaning performance

- Made from 100% recycled materials and 100% recyclable after use
- High absorbency for good spill pick-up
- Efficient removal of stubborn and fatty dirt like grease or fingerprints
- 100% quat compliant
- Colour coding system

## Storage, disposal and end-of life
